SIC CODE (Standard Industrial Classification Code)

The objective in industry classification is to have each place of business coded on the basis of its principle activity. If a firm conducts different activities at its various establishments, separate industry codes are assigned to the extent possible to each activity. Industry codes are assigned to each reportable establishment based on 'nature-of-business' information employers submit, in accordance with the Standard Industrial Classification Manual, 1972 edition.

ESTABLISHMENT

An establishment is defined as a single physical location at which one, or predominantly one, type of economic activity is carried on. Employers who operate at two or more locations are requested to identify separately the employment and payrolls of each location.

EMPLOYMENT

Employment for a given month is the number of workers covered under the Montana Unemployment Insurance laws who earned wages from a reporting unit during the pay period which includes the 12th day of the month.

GROSS WAGES

Total wages, as reported on the quarterly contribution reports of employers covered by the Unemployment Insurance law, are the total amount of compensation paid by the employer during the quarter.

TAXABLE WAGES

Taxable wages are that part of employers' annual wages subject to the Unemployment Insurance tax. Taxable wages are reported quarterly, and normally are highest in the first and second quarters, since UI taxes apply to first dollars earned during the year.

CONTRIBUTIONS

Contributions are the taxes due on taxable wages for the quarter. Taxes are assessed on subject employers at rates determined by Montana's experience-rating law.

DISCLOSURE RESTRICTIONS

Publication of employment and wage data is withheld for any industry level which consists of fewer than three reporting units or in which a single establishment accounts for 80 percent or more of the industry's employment.
